| B.5 | Polyglyceryl-4 Diisostearate/Polyhydroxystearate/Sebacate | Isolan® GPS | Evonik | 1,00 |
| C.1 | Fragrance (Parfum) | Silk | KAO | 0,15 |
| TOTAL | | | | 100,00 |

PROCEDURE

1. In a clean beaker, weigh A.1 and heat it up to 70°C for adding A.2 with rotor stator during 5 min at 5000 rpm.
2. Then add A.3 and A.4 .
3. In parallel weigh the ingredients of phase B together and heat up to 70°C with magnetic stirring.
4. Add slowly phase B under rotor stator to phase A during 2 min at 6000 rpm.
5. Then cool down to 30°C under regular stirring for fragrance addition.

CONTROL

Appearance: Liquid Off White Emulsion.

pH: 4,5-5,5

Stability Test: 3 months at 50°C, 40°C and RT.

Viscosity (20°C , 100 rpm, spindle 6): 80-400 mPa.s.

**NATURAL ORIGIN
CONTENT (ISO 16128)**
99,8%

EWG
1 - 2

DIRECTIONS

Apply on clean skin , as the first step of your skin care routine.

TARGET

All skin types.
