	diverse	Parfum	diverse	0.04
				100.00

Manufacturing procedure:

1. Mix elements of phase A under slight heating up to 68°C.
2. Add B and disperse at least for 3 minutes, until everything is dissolved.
3. Cool down to 50°C while stirring. Add components of phase C and homogenise.
4. Cool down to 35°C while stirring. Add components of phase D and disperse.

Specification values:

- Appearance: dark red oil
- Stability: more than 3 months stable at 20°C, 40°C and 4°C

Description:

AstaCos® Face Astaxanthin Intense has specially been developed for dry facial skin. The active ingredient AstaCos® OL50 easily penetrates the skin due to its molecular structure and can develop its multiple effects in all layers. The formulation is particularly suitable as night care and for the eye area. It supports the regeneration of the facial skin and is active against expression lines.
