

**Easy clean probiotic bathroom cleaner  
with CroBiotic™ 100L****HC/HS/132**

This green bathroom cleaner combines the benefits of high performance surfactants and probiotics to give deeper, easier cleaning.

ECO NatraSense™ 265 provides excellent detergency, particularly on difficult to remove soap scum stains. A separate fragrance solubiliser should not be required, due to the additional solubilising benefits of ECO NatraSense 265.

CroBiotic 100L probiotics remain on the surface after the initial clean, activating in the presence of residues and degrading difficult to remove soils. CroBiotic 100L makes future cleaning easier and provides a deeper clean than ever before.
